Didn't Disable Gun

Pietrmaritzburg, Dec. 29-[Special Cablegram |-The story of an abortive attempt by the British at Ladysmith to attack and destroy a Boer gun, is just at hand. The attacking party reached the gun, but the gun cotton with which they planned to disable it, failed to explode, and the gun remained intact Meanwhile the Boors rallied and har assed the British retreat. Ts Ladysmith Surrounded?

Pretoria, Dec. 29-[Special Cablegram]-Report from General Schalkenburger says that trains are now running to Colenso. The officers here think that this is to indicate that the Boers have built a connection around Ladvsmith. Gen. Schalkenburger also reports

that it is rumored that Methuen's big naval gun exploded, injuring many men. Kaffirs Head for Boer Laager Lourence-Marques, Dec. 29-[Special Cablegram | —A telegram from Pretoria

says that the starved Kaffirs at Mafeking are heading for a Boer laager.

Gen. French is III London, Dec. 29-[Special Cablegrhm]-A long delayed dispatch from Ladysmith says that Gec. French is

suffering from a slight attack of fever. "Heavy Firing" is Heard

Craddock, Cape Colony, Dec. 29-[Special Cablegram]—Heavy firing is reported to have been heard in the direction of Stormberg.

London, Dec. 29.-Ladysmith was heavily bombarded again Wednesday. The results are as yet unknown, but the report that Sir George S. White is supplied with two months' rations and has improved his field fortifications materially, relieves some of the fears regarding the safety of the be-

sieged town. Yet no one need be much surprised if the news comes that Ladysmith has fallen.

Methuen's camp was also bombarded on Tuesday night, but no casualties are reported. Lord Methuen claims that he has plenty of food, but intimates that the Boers' assumption of the defensive, by bringing long-range guns to bear on his camp, is somewhat annoying.

In spite of Col. Baden-Powell's clever notes to the Boer general, reports indicate that the Boer shells are becoming increasingly dangerous. The fall of Mafeking would not be surprising either.

In view of the apparent supineness of the British commanders in preventing the daily strengthening and extending of the Boer positions along the Tugela and Modder rivers, which are now considered to be practically impregnable, many experts here are coming to the conclusion that the British have given up the idea of carrying these positions by assault, and will await the transport and cavalry required to give their forces, the necessary mobility, when they hope to be in a position to besiege the Boers in their respective Pleynas, while Gen. Roberts carries out the original plan of campaign, that of advancing straight north on Bloemfontein, the other generals detaching sufficient mobile troops to reach their goals by circuitous routes.

There is thing in the official or best independent reports to indicate that the beleaguered garrisons are in any special straits calling for immediate relief. The latest advices from Kimberley, where a shortage is most feared, report plenty of food.

Cape Town, Dec. 29.—Col. Reesard, commanding the Canadian contingent of troops, is to join the staff of Gen. Buller, all the members of which are proceeding to Natal, indicating that Gen. Buller's sphere will shortly be confined to Natal.

A man named Green, a former sergeant-major of the British balloon department, is among the Boer prisoners captured at Magersfontein. Green, who deserted from Aldershot in 1893. admitted that he had been some time in the service of the Boers and had instructed them in trenching. He says there were 23,000 Boers at Magersfontein, 21,000 c" whom were engaged the yielded. He says the Boer horses have to be taken to the Modder river, as water is scarce at Magerstontein.

Lord Sallsbury May Retire. London, Dec. 29.—The announcement that the chief private secretary of the prime minister is going to the front as a volunteer has led to a revival of the rumor that Lord Salisbury is soon to retire. Some correspondents of provincial papers are making much of the story. One insists that the premier intended to retire early in the next year, and discussed the matter with the pueen, but decided to post-pone his withdrawal when the Transvaal trouble was imminent, and that he will remain at the head of the cabinet now until the end of the war, but will certainly leave, says the corre-spondent, before another apeal is made to the country. War Council in Paris.

Paris, Dec. 29.—There was a long conference at the Elysee Thursday between President Loubet, Premier Waldeck-Rousseau, and the ministers of war, marine and the colonies relative to the necessary protective measures for the defense of the coasts and the colonies. The conference is a hint that France is getting ready for any eventualities growing out of the South African war or the ratification of the English-German convention. Capt. Demanche has received orders to start for the Transvaal to follow the Boer army for the purpose of making military observations.

Aguinaldo's Representative Asserts That President MtKinley Can End the War on Short Notice If He So Desires, But Opinions Differ as to What Should be Done in the Matter .-Rebel Leader Near Manila.

Philadelphia, Pa., Dec. 29.—"If Presdent McKinley will decide on anything like reasonable terms for the surrender of Aguinaldo and the Filipinos under him, and will inform the Filipino congress through us, its representatives in this country the Filipinos will lay down their arms within the next month or two and the war will end." These are the words of Jessun Luigi T. de Franandez, who claims to be one of three special representatives of Agoncillo and the Filipino congress, as he was about to take the 3:10 train for New York over the Reading rail-

road Thursday afternoon. Franandez, with two others-Lucio Le M. Lejera and Jutiet Franciscus Lopez-were appointed at a meeting of the Filipino congress as special representatives to come to this country and if possible have a personal interview with President McKinley. Their mission is principally to ascertain, from war in the Philippines and if possible certain terms that they will offer.

While in Washington the three representatives are also to make a canvass of the members of the senate and house of representatives, with the object of learning every member's attitude toward the administration and the Filipino war. The three representatives arrived in New York on Christmas evening on the Campania from Liverpool.

Pressed as to the nature of the overtures or terms he and the other representatives were to make. Franandez positively refused to divulge them.

"Our duty while here will be to see the president and endeavor to get him to explain his feelings toward the Fili-pinos," said the emissary. "We! will lay the terms we have been given before him, and if he agrees to them all the trouble will end. If he will not consent to anything but the terms Gen. Otis has already offered the war will continue.

BELOIT MAN HOLDS WORTHLESS PAPER

ALLEGES MAX PFENNIG GAVE HIM FORGED MORTGAGES.

Claimi That He is Loser to the Amount of \$2,700-Local Attorneys Make the Discovery by Investigating the Records-Man Who Had Lost Was Keeping Quiet.

P. J. O'Byrne of Beloit, has been in Jancsville of late looking up evidence, as he thinks that he now holds worthless paper to the extent of \$2,700.

This paper, he says, was given him by Max Pfennig the missing loan and real estate agent Mr. O'Byrne alleges that he gave Mr

Pfennig the cash to loan for him and that in exchange he was presented with forged notes and mortgages. When the papers first published accounts of Mr. Pfennig's disappearance Mr. O'Byrne says that he suspected that all was not right with the dealings that he had with the Janesville man but that other business prevented him coming to Janesville at the time to investigate,

Attorney M. O. Mouat of Fethers, Jeffris & Mouat, have been looking after the Beloit man's interests here.

GOV. PINGREE MEETS DEFEAT.

Taxation Resolution Is Voted Down in the Michigan Senate-

Lansing, Mich., Dec. 29.-Gov. Pingree's joint resolution, recommended in his special message and the ostensible reason for calling the special session, came to a vote in the senate Thursday in substantially the form as passed by the house. During the prolonged debate several senators accused the governor of persistently misstating facts, figures and laws in his succes sive messages and speeches on railroad taxation. They also accused him of gross inconsistency in denouncing specific taxation; since last June he signed a bill which permits the Soo Water company, which has an authorized capital of \$20,000,000, to elect to pay a specific tax whenever it is dissatisfied with the local tax assessed against its property.

Sixteen senators voted against the joint resolution and only thirteen in favor of it. The opponents of the submission of the constitutional amendments for the taxation of corporations had nine votes to spare.

The senate voted in favor of adjourning finally Saturday. The house will do likewise if the governor does not recommend futher legislation.

Gov. Pingree will send a special message to the legislature today recommending the submission of a constitutional amendment providing for municipal ownership of street railways.

A SURE CURE FOR GROUP. Twenty-Five Years of Constant Use With

out a Failure.

The first indication of croup is hoarse ness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. VICE AND THE POLICE. If we had a better police system per haps petitions signed by 800 people would not be so much in evidence Everyone who signed the "Kempton petition" would doubtless have preferred complaining to an officer to complaining to the common council. But it is easier to find the council than it is to find the policeman. If laws are violated in Janesville, the officers should certainly prosecute the offenders. But three offi cers cannot be expected to do the work that requires eight in other cities of the size of Janesville The citizen naturally countenances many annoyances, to speak mildly, rather than devote an hour's time to hunting for a policemen, whereas, if the policeman could be readily found, the matter would doubtless be quickly attended to.

The charge has been openly made that much vice exists in this city, and the the future—that is, creating a state allegation has not been disproved. The police and the city officials are doubtless giving the people their best endeavors. but the mayor and the aldermen have nothing to do with the matter except to see that the policemen do their duty. Therefore, the whole question thus simmers down to one plain proposition:

If abuses exist to an unlawful degree, the police department is remiss in its duty; if the police department is remiss, because of neglect or incompetency, it should be "shaken up;" if it is remiss because of insufficient numbers, more men should be added; an adequate force, managed on a business system is the only cure for such a state of affairs as is alleged to exist.

Janesville is not a puritanical city "Blue laws" would be as unpopuar here, doubtless, as they are in other cities. The people demand a reasonable amount of personal liberty But it goes without saving that a large majority are in favor of law and order. They are inclined to stretch a point in favor, rather than against a policy of enforcement. Hence the fact that the "Kempton petition" was so liberally signed, although many undoubtedly signed it because they did not want to go on record as refusing to do so.

A better police system would not only afford more protection to the people, but it would do away, in a large degree, with popular clamors for radical action, because of the fact that a citizen who had a grievance could readily file his complaint, instead of nursing his wrath until he could no longer contain himseif, simply because an officer is not to be found.

It is tseless to deny that Rev. Mr. Kempton has stated much truth in his series of sermons. It is equally useless to deny that some of his conclusions are unwarranted, and that he asks for a more stringent construction of the law than is popularly demanded—the minister's point of view is likely to be too spiritual to meet with popular approval.

A compromise between the radical policies demanded on both sides, therefore, is the just and proper remedy, and there should be a better police system so that this policy can be carried out.

All laws, and ordinances should be observed, and all offenders punished, but prosecutions should not be persecutions. No man will violate the law while the eye of a policeman is upon him, or when he knows that the policeman is within call of people who have knowledge of his guilt.

The whole matter was gotten into a nutshell when John T. Fitchett testified before the council committee. He told the aldermen about finding a saloon open on Sunday. The aldermen asked him why he didn't complain, Fitchett answered that he mounted his bicycle, and rode about in search of a policeman, but could not find one.

If Fitchett had found the policeman the officer would doubtless have given to arrive at Cape Town Jan. 10 or 11. Mr. Fitchett's complaint due attention. and Fitchett would not have gone to the

conneil with his grievance. Janesville's police system is behind the times. Until it is bettered, complaint will follow complaint, and Janesville will suffer in reputation, if not in pocket.

The police committee can also learn something to its advantage by taking up the question of the popular demand for a better police system. It will not be necessary to summon any witnesses,

It follows, as a perfectly logical conclusion, that the eight hundred petition signers are also in favor of a better police system.

The Kreuz Zeitung says editorial-"The best solution for Germany would be a peace guaranteeing the Boers their independence and securing whose frontier touches the sea, in order to enable it to adapt itself to the new times upon which Africa is entaring. That must be the policy of the Boers. We do not desire the British to be expelled wholly from Africa, but we do not see the necessity for making the entire African continent British. The ideas of Cecil Rhodes will split upon the rock of Boer courage."

Willing to Accept Assistance, London, Dec. 29.—The British government now evinces a marked change from its attitude in the early stages of the war and shows a disposition to accept assistance from any quarter. The imperial yeomanry committee has issued a statement to the effect that the government considers the formation and dispatch of yeomanry as one of the most pressing needs a the situation and has intimated that it is now prepared to accept from 8,000 to 10,000 yeomanry instead of the 3,-000 originally asked for. It is expected the first contingent of 1,000 will sail about the middle of January.

A PROSPEROUS YEAR FOR TOBACCO MEN

PAST TWELVE MONTHS MARK-ED BY GOOD TRADE.

Crap is of Unusual Merit and Business Has Feit a Consequent Improvemert-No Extravagant Profits Have Been Rule, but Everyone Has Made a Little Money,

The year now closing will pass into history as one of the most prosperous ones the tobacco trade of this state has ever experienced, says The Edgerton Reporter. The '98 tobacco crop which has comprised the principal stock in trading has been a money maker to everybody that handled it. The growers were laid very fair prices to com-mence with and the stock has appreci-ated in value ever since it left their hands. One reason for this very satisfactory condition is that the crop is in trinsically of unusual merit and became at once recognized as one of the best quality crops the state has ever offered the trade. It met with a ready sale as this fact became established and the packers have been able to realize very good profits on their investments The crop is damaged somewhat in the cur ing process but the advance in prices more than make up that loss.

No Extravagant Prolits

While the profits have not been extravagant, they are none the less satisfactory to all concerned. The result has been that packers have sold down much closer than usual at this time of the year and many of them are able to balance their books and count the profits of a season's business.

The new year will find the great bulk of the '99 crop sold at an advance of more than a cent a pound over what the '98 brought the producer. The most of the growers, too, are able to count up the profits of the year's crop which we are certain will be quite satis-factory to them. Whether the packers will be equally as fortunate in their in vestments in the crop is a question for another year to decide. .

New York Dealer's Idea.

A New York tobacco dealer who spent some time riding in the growing districts of this state and carefully noting the movement of the new crop gave his conclusions to a friend in departing for home to be: "I find the '99 crop was from one to two cents poorer than the '98, and prices about two cents higher. I am unable to figure where there will tion the possibility of asking four cents more for his tobacco a year hence. And this is what the owners of '99 Wisconsin will eventually come to.

Quiet in Holiday Season The holiday season rarely brings much business in tobacco matters and the present one is no exception to the rule. Many of the eastern buyers are home for the holidays and local men have temporarily withdrawn from the field, leava lult in the movement of the new crop for the time being. It is quite probable daily privileges, social, intellectual; that buying will be resumed after the moral and physical. new year as we learn new firms have entered the field at the eleventh hour,

Life Growing Longer. Prof. Mansfield Merriman, studying the United States census reports since

1850, has discovered a marked and steady increase in the length of human life in our country during the last half century. His statistics, which were presented at the recent meeting of the American Association for the Advancement of Science, show that in 1850 the median age of the entire population was 18.3 years, while in 1890 it had risen to 21.4 years. In 1900 he anticipates, it will be 22.4 years, "median age" is meant that which divides the population equally, one-half being above and the other half below the median.

J. A. Cunningham and wife, who are at present in Redlands, Cal., got there in time to have an experience with the earthquake which struck southern California early Christmas morning. In a letter just received by H. J. Cunning-ham from his mother, she says;

"About 3 o'clock Christmas morning we were awakened by what I thought to be a heavy team passing the door but the noise increased until it sounded as if there were a dozen people running up and down the hall. Instantly the house began to shake just as you would shake a rag, not a vibrating motion but an up and down and around motion; every board and timber in the house creaked and cracked and we had no idea but what the roof was coming down over our heads. Your father got to the door but I could not have moved to save my life. Every one in the house was up and all terribly frightened, and the land lord said it was the severest shock he ever felt here. It lasted a full half minute but it seemed much longer of course. The next morning we felt like running the risk of being blockaded in the Rockies, and starting for Wisconsin, where even if it is cold they do not have experiences like these."

If a prospective bride cannot achieve a real seventeenth 'century carved German chest, she contents herself with one of the modern copies, which are not at all bad, or she has one made by the nearest carpenter. This may be made of oak or any other hard wood, and in lieu of carving has ornate hinges and lock of brass. In this she lays away her increasing store of linen, liberally interspersed with real English lavender done up in bags of "fair linen," that have one of her initials embroidered in a corner .-- Baltimore News.

Griswaiving the opening. wold bought him a dinner at Lanphier's restaurant, and the nov then ing of any evidence under the complaint hunted up his father, who runs the Highland house barn.

Gov. Mount Denounces Trusts. Indianapolis, Ind., Dec. 29.-Gov. Mount, in a speech before the Indiana Hotel-Keepers' association, denounced trusts., "I am in favor," said he, ,"of removing all tariff protection from such industries as may combine to destroy competition." Gov. Mount said the argument that trusts cheapen articles is misleading. He took the case of the Standard Oil company, and held that great corporations had not been heneficial. Another potent danger to the public weal, he said, is the polit-ical influence of those great aggregations of capital.

I, F. P. Starr, county clerk of said county, do hereby certify that the foregoing is a true copy of the proceedings of the county board of supervisors of said county, held in the office of the clork thereof in the city of Janesville on the 4th, 15th and 16th days of November, 1899.

[L.S.] set my land and affixed the county scal at Janesville, Wis., this 28th day of November, 1899.

F. P. STARR, County Clerk. WHAT DO THE CHILDREN DRINK?

Dun't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more leath you distribute through their systems. Grain-O is made of pure grains, and when properly propared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell it. i.e. and 25c.

MINERS SEEK HIGHER WAGES

General Demand to Be Made at National Convention.

OFFICERS MAY BE CHANGED.

Miles Dangherty of Shamukin, Pa., Witt Be a Candidate for President Against John Mitchell-Many Seek Vice-Presidential Honors-In Secret Session.

Indianapolis, Ind., Dec. 29.-At the national convention of the United Mine Workers of America, which meets bere Jan. 15, there will be a candidate against John Mitchell for president. Miles Daugherty of Shamokin, Pa., is the man. The following candidates are in the field for vice-presidents: William D. Van Horne, Terre Haute. Ind.; John P. Reese, Albia, Iowa; John Fahy, Pottsville, Pa.; William H. Raney, Delcarbo, ind.; W. R. Cassado, Pine Knot, Ky.; John H. Morgan, Diamond, Ind.; W. B. Kissinger, Central City, Ky.; Frances Farrell, Scranton,

Pa.; William Clelland, Clark City, 111. Secretary W. C. Pearce will find opposition in H. J. Short of Knightsville, There are scores of candidates for membership in the executive board and for the auditorship and other offices. Under the rules of the order all candidates must be known and their names sent two weeks in advance to every local order, which instructs its delegates how to vote in the convention. By this means electioneering is avoided, and the delegates simply follow instructions.

Delegates from all the district organizations are still here in secret session, and it is now believed here the meeting is for the purpose of making a general demand for higher wages to be backed up by the entire organization. It is given out that it is only to arrange for the national convention.

IS NO REASON FOR PROTEST.

Complications Between America and

Britain Over Seizure Unlikely. New York, Dec. 29.—Some misapprehension appears to have arisen out of the cabled reports of the seizure by the British government of flour sold in New York and consigned to Delagon bay. I was said at first that flour was not ordinarily considered contraband of war, and that protest might issue from this government against such an act by the British imperial authorities. Then a story gained currency that the flour was really not American property, but was owned by British subjects in South Africa, who had bought it here and paid for it; that it was transported in British ships by British forwarding and transportation agents. It is apparent from the conversation of shipping agents downtown that there is no likelihood of any diplomatic protest from this government, and no reason for it, but rather that if this government is called upon to act at all it may be in the way of seeing that remuneration is meted to the American sellers of the merchandisc, if it shall appear that they are still legally the owners of it.

Will Make Fight Upon Bynum.

Washington, Dec. 29.—The Post "In a few days charges will be filed before the finance committee of the senate against the confirmation of ex-Representative William D. Bynum of Indiana as democratic appointee for the New York board of appraisers. The minority of that committee are determined to resist the installment of Mr. Bynum in that position. They will do so on the ground that he is not a democrat, but has openly affiliated himself with the republican party."

As a cure for rheumatism Chambe lain's Pain Balm is gaining a wide reputation. D. B. Johnston of Richmond Ind., has been troubled with the ment since 1862.. In speaking of it he "I never found anything that would relieve me until I used Chamber lain's Pain Balm. It acts like magic with me. My foot was swollen and paining me very much, but one good application of Pain Blam relieved me." For sale by Smith's Pharalacy, next to posoffice, kodak agents.

Aurora Man Chosen President. Springfield, Iil., Dec. 29 .-- At Thursday's session of Illinois State Teachers' association the committee on nominations reported the following officers for the ensuing year, and the report was adopted: President, A. V. Greeman, Aurora; first vice-president, F. N. Tracy, Kankakee; second vice-president, William M. Roberts, Chicago; third vice-president, J. E. Bangs, Pontiac; secretary, Joel M. Bowlby, Carbondale; treasurer, William R. Hatfield, Pittsfield.

St. John's, N. F., Dec. 29.—The modus vivendi respecting the New-

Fishery Troubles May Arise.

foundland shore lobster fishery will expire Dec. 31. Serious trouble may arise on the coast if this agreement is not renewed. The British government is now anxious regarding the action the colonial authorities propose to take It is likely that the colony will agree to compromise the question in view of the British difficulties in South Africa.

Votes for Civic Ownership.

Detroit, Mich., Dec. 29 .- In special session Thursday the common council listened to a message from Mayor Maybury advocating the passage of a resolution requesting the legislature to submit an amendment to the constitution permitting municipalities to own and operate street car lines. Then the resolution was passed by a vote of 26 to 1

STATUS OF DELAGOA BAY. derlin Story I- Both Afficined and

Denled. Berlin, Dec. 29.-The semi-official elegraph agency has made little impression with its sweeping denial of the Lokal Anzeiger's story that the Portuguese colonies had been divided between Germany and Great Britain

under a recent secret treaty. It is quite possible that the agency is right in declaring the agreement an arbitrary and fictitious combination, This could be said of any story not correct in every detail.

Well-informed circles in Berlin doubt, however, whether Germany will consent to the publication of the treaty before the present war in South Africa is ended, as public sentiment here does not approve of German connivance at the seizure of Delagoa bay for war pur-

Washington, Dec. 29 -Officials of the state department say they have absolutely no trustworthy Information in regard to the movements of Great Britain and Germany, looking towards the partition of the Portuguese territory in South Africa. They have taken it for granted the British would secure the Portuguese dominion south of Zambesi, not by a seizure, but by virtue of the old option, under which they could se cure possession of Delagoa bay.

The state department is inclined to view the reports from Berlin as somewhat exaggerated, but, at the same time, it believed Germany will offer no opposition to the British occupation of

the south end of Portuguese Africa. London, Dec. 29.—The Standard says no credit should be given to the rumor from Berlin of a secret Anglo-German-Portuguese treaty for the partition of the colonies of Portugal.

Congress of India Objects.

Bombay, Dec. 29.—The Indian congress has declared its dissatisfaction with the currency measures of the government, alleging that they have the effect of depreciating the value of the savings of the masses, virtually enhancing rents and indebtedness and injuriously affecting manufacturers.

EMPHASIZED HIS LAST WILL. Old Steamboat Captain Tried to

Prevent a Contest. the New Orleans Times-Dem-"I am free to admit this story sounds a triffe fishy," said a New Orleans lawyer, chatting over an afterdinner eigar, "but I happen to know it is absolutely true. Last summer a local business man, who it isn't necessary to name, made a new will of rather an elaborate and peculiar char-'I am bound to say to you,' remarked his attorney, when the document was completed, 'that I think it more than likely your children will make a contest if this will is ever probated.' 'I'm going to have a talk with them of that very subject,' retorted his effent. Yes, replied the attorney, but when your voice is stilled forever they may think differently about it.' That remark set the old man to pondering, and he finally hit on a very picturesque expedient. He had a phonograph at his office, and, putting on a fresh cylinder, he roared his last injunctions into the receiver in his most impressive style. Then he carefully removed the record, swathed it in cotton wool, and filed it away with the will. Next day he sent for the lawyer and gave him specific directions what to do after the demise. I want you to call the family together,' he said, 'and read the will carefully from beginning to end. As soon as you get through and before they have time to talk about it, start the phonograph going and let 'em hear my last message. Be sure to have a good, big horn on the machine and see that everything is in first-class working order. You had better keep the thing in your office,' he continued, 'and any time a contest is mentioned just turn it loose.' The old gentleman was a steamboat captain in his early days and he has a way of giving an order that makes one jump to hear it. I am inclined to believe that his scheme is a good one, and that his parting adjuration, coming as it were from the grave, will have a highly discouraging effect on litigation.

GREAT SCIENTIFIC DISCOVERY. Austrian Flads a Subtle Matter Which Ho Calls "Electroid."

Francis Rychnowski, a mechanical engineer of Lemberg, Austria, has discovered a strange and very subtle matter, which he called "electroid" because of a certain affinity with electricity. Electroid, produced by a special apparatus built by the inventor, is obtained by the dissolution of certain matters under the influence of the electric current. It makes noise, and at the same time a refreshing scent and cool breeze are experienced. This discovery induced Mr. Rychnowski to make a machine capable of refreshing the air to such a degree that those present during the experiment had the feeling that the window was open, although this was not the case. Electroid is a very subtle matter, but it seems to be a fluid, and it can be gathered and preserved. While falling on a plate it reflects in a shape of shining sheaves. The commission appointed by the Austrian government to investigate this discovery reported that under the influence of electroid plants grow rapidly and the buds, of flowers unclose while one is tooking at them. Electroid annihilates microbes and thus preserves organic matter. These are physiological influences of electroid. Among mechanical phenomena the commission reported that the influence of electroid is not stopped even by a brick, wall and glass; that it attracts solid bodies and makes them shine like moonlight-it makes them move and attract other bodies; finally, that it acts on photographic plates and produces sharp and distinct lines, such as were formerly possible only with a very powerful

Blindness from Sugar.

Several members of the crew of a sugar-laden ship were afflicted with blindness in the moonlight and starlight when in the tropics, though they could see quite clearly as soon as the sun rose. They attributed it to the fumes from the sugar.
